Five Distinct Tracks
The four law tracks (Criminal Defense, Copyright, Immigration, Civil Litigation/Consumer Advocacy) and Human Resources provide interns with the opportunity to work alongside our attorneys and case managers while they gain the knowledge and understanding of how a national law firm operates. The Human Resources track provides interns the opportunity to work with the law firm’s Human Resources team. Our HR intern will assist with the on boarding and recruiting of over 35 interns each semester.

Our Internship Program
The internship program, which is unpaid, gives students and those seeking to gain work experience the opportunity to work hands-on in a dynamic law firm. The internship program has five distinct tracks: four tracks focusing on law, as well as one for human resources. Additionally, hundreds of interns have gone on to become full-time employees since the program was established in 2010.

The internship program helps students apply classroom learning to practical real-life problems. Interning at Higbee & Associates will help students develop a network of professional relationships and contacts while exploring a potential career choice.
Higbee & Associates interns are expected to complete a minimum of 100 hours with academic credit. Interns will receive valuable feedback and evaluations from professionals in our office to enhance their overall learning experience, as well as discounts for LSAT prep class and law school related items.
